EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Claims 1-12 have been cancelled.

Reasons for Allowance

2. Claims 13-24 are allowed.

The following is an examiner's statement of reasons for allowance:

- With regard to independent claim 13, as the closest reference, the combination of Oumi et al (US 7,057,998) and Tanaka et al (US 6,429,461) discloses an apparatus comprising a single monolithic device including a slider, an air bearing surface, and at least one laser wherein the laser includes an aperture in an emission facet, the monolithic device being mounted on a read/write arms via a suspension mechanism, the device being used to read and write on an optical media; **but fails to show** that the slider is adjacent to a p-clad layer, and the emission facet is substantially co-planar with the air bearing surface.
- Applicant asserts; the optical head of the invention as thus prepared, is a single monolithic device comprising an aerodynamic slider and one or more optimally positioned solid state lasers. The invention thus avoids

any complex and time-consuming positioning and attachment of the lasers on the slider, as has been heretofore required with previously used optical heads ([0021]).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
